**Important Information**

Keep this statement for income tax purposes

An investment in a money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. Although the funds seek to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in a money market fund. Dividends are declared daily and paid/reinvested monthly. The prospectus contains this and other important information. Read the prospectus carefully before investing. Non-deposit investments held by your broker-dealer are NOT FDIC INSURED / NOT BANK GUARANTEED / MAY LOSE VALUE.

The above prices are provided only as a general guide to value your portfolio. Current quotations are available through TD AMERITRADE. Certificates of Deposit are priced at market prices. Sale of bonds prior to maturity may result in a loss of principal. Mortgage backed positions are valued using the remaining balance and the current market price.

**Non-Standard Assets:** This statement shows all assets in your account including certain direct investments that may be held by a third party. TD AMERITRADE is not responsible for third-party information, including the valuation of certain non-standard assets. The price shown represents an estimated value that is provided by an annual report or other source. The estimated value of these assets may not be realized when you try to liquidate the position. Assets held by a third party are not covered by the Securities Investor Protection Corporation (SIPC)

**Auction Rate Securities ("ARS") Pricing:** TD AMERITRADE has consistently reflected the value of ARS positions in client accounts and on account statements at par. Par value may not be the same as the market price that could be obtained in the event of a sale. The ARS market is currently experiencing a lack of liquidity and, as a result, there can be no assurance that such securities can be sold under current market conditions. In the event of a failed auction, the coupon rate paid to holders is typically set to a predetermined rate specified in the offering documents for such securities.

The most recent statement of financial condition for TD AMERITRADE Clearing, Inc. may be obtained at no cost, via the Internet at <http://www.tdameritrade.com/financialstatement.html> on or before 12/29/08, or by contacting TD AMERITRADE Clearing, Inc. at 1-800-237-8692. As of September 30, 2008 TD AMERITRADE Clearing, Inc. had net capital and a net capital requirement of \$836.5 million and \$157.5 million, respectively. A copy of the report and comments is currently available for customers' inspection at the principal office of the commission in Washington DC and the Denver, CO office of the Commission.

**Important Information****Anti-Money Laundering Requirements**

The USA PATRIOT Act is designed to detect, deter, and punish terrorists and/or terrorist groups in the United States and abroad. The Act requires U.S. financial institutions and brokerage firms to implement comprehensive anti-money laundering programs.

**What is money laundering?**

Money laundering is the process of disguising illegally obtained funds so that they appear to come from legitimate sources or activities. Money laundering occurs in connection with a wide variety of crimes, including (but not limited to) illegal arms sales, drug trafficking, fraud, terrorism, embezzlement, and political corruption.

**How big is the problem and why is it important?**

According to the U.S. Department of State, one recent estimate puts the amount of worldwide money laundering activity at roughly \$1 trillion per year. The use of the U.S. financial system by criminals to facilitate terrorism or other crimes could taint our financial markets.

**What is TD AMERITRADE required to do?**

As required by the USA PATRIOT Act, our anti-money laundering program designates a special Compliance Officer to ensure compliance with applicable laws, maintains policies and procedures to detect and report suspicious transactions, performs employee training, and conducts independent audits. Federal law also requires all financial institutions to obtain, verify, and record information that identifies each person who opens an account. As part of this requirement, we may ask you to provide various identification documents or other information. Until you provide the information or documents required, we may not be able to open an account or process transactions for you.

We thank you for your patience and look forward to your support in our efforts to deny terrorist groups access to America's financial system.

**Annual Margin Disclosure**

Securities purchased on margin are the firm's collateral for the loan to you. If the securities in your account decline in value, so does the value of the collateral supporting your loan. As a result, the firm can take action, such as issuing a margin call and/or selling securities or other assets in any of your accounts held with TD AMERITRADE, in order to maintain the required equity in the account.

It is important that you fully understand the risks involved in trading securities on margin: You can lose more funds than you deposit in the margin account. The firm can force the sale of securities or other assets in your account(s). The firm can sell your securities or other assets without contacting you. You are not entitled to choose which securities or other assets in your account(s) are liquidated or sold to meet a margin call. The firm can increase its "house" maintenance margin requirements at any time and is not required to provide you advance written notice. You are not entitled to an extension of time on a margin call.

The valuations on your portfolio report are provided as general information and we do not guarantee the accuracy of any securities prices.

Limited Partnerships and non-traded Real Estate Investment Trusts are generally illiquid and have no public markets; annual valuations are obtained from a third party or the general partner. The secondary market for Certificates of Deposits (CDs) is generally illiquid and the actual value may be different from the purchase price. A significant loss of principal may result from the sale of a CD prior to maturity. Portfolio report valuations may not represent sales proceeds.
